

# Plumbing Service & Repair Apprenticeship

## About Our Company:

Drain Doctors Plumbing has been making house calls all over the Central Coast since the late 70's. We're a licensed, insured, family-owned company specializing in residential service and repair – no new construction, just real homes and real people who need a plumber they can trust. We can teach the trade to the right person. What we can't teach is work ethic, attitude, and the drive to do the job right. If you bring those, we'll handle the rest. We're growing fast and looking for the next generation of great technicians to grow with us. We pay well, we train well, and we take care of our team. If you want a career in the trades with a company that has your back, you've found the right place.

## Job Description:

We're looking for motivated, dependable people to join our Apprentice Training Program. You'll work alongside experienced plumbers on residential service and repair calls – learning the trade, building real skills, and delivering the kind of customer experience that keeps homeowners calling us back for 40+ years. This isn't just a job. It's a career with a clear path forward.

## Essential Duties & Responsibilities:

The essential functions of an Apprentice include, but are not limited to the following:

- Deliver excellent customer service on every call – homeowners invite us into their homes, and we take that seriously.
- Assist in the diagnosis, repair, and maintenance of residential plumbing systems including pipes, fixtures, and appliances.
- Actively participate in our formal training program to build technical skills and learn applicable codes and procedures.
- Keep a clean, organized work environment and properly store tools and materials.
- Follow all safety protocols and company policies.
- Bring integrity and loyalty to every job, every day.

- Live our Core Values and help the whole team level up.
- All other duties as assigned.

## Minimum Qualifications:

- High School Diploma or GED required.
- Strong mechanical aptitude and genuine willingness to learn.
- People skills matter here – you'll be in customers' homes representing Drain Doctors.
- Solid problem-solving skills and attention to detail.
- Must pass a background check and random drug testing.
- Ability to work independently and as part of a team.
- Valid driver's license with a clean driving record.
- Physical ability to perform job duties including lifting heavy equipment and working in varied environments.

## Benefits:

- Competitive hourly wage with opportunity for advancement
- Comprehensive training program
- Health Insurance & 401k.
- Paid Time Off & Holidays
- Supportive & collaborative work environment.

## Application Process:

Ready to get your hands dirty and build something great? Send your resume and a quick note about why you're interested to [office@draindoctorsplumbing.com](mailto:office@draindoctorsplumbing.com). We look forward to hearing from you.
